## KANSAS NEWSPAPERS.

---

The following is a list of the newspapers and periodicals published in Kansas, corrected to January 1, 1913.

The regular issues of these, with very few exceptions, are now being received by the Kansas State Historical Society. They are the free gift of the publishers of the state. They are bound in annual or semiannual volumes, and are preserved in the library of the Society in the state capitol for the free use of the people. They number 798 in all. Of these 69 are dailies, 603 weeklies, 1 triweekly, 20 semiweeklies, 1 every three weeks, 74 monthlies, 11 semimonthlies, 5 bimonthlies, 10 quarterlies, 4 occasionals. In the aggregate we have 25,957 bound volumes of Kansas newspapers and magazines. They come from all of the 105 counties of Kansas, and record the history of the people of all the communities and neighborhoods.

Many newspaper publishers fail to realize the importance of this printed list. Aside from the regular issue of this biennial report of the Historical Society, about 300 separate copies of this list were called for in the past biennium by business men, officials, advertisers and politicians, several being furnished parties out of the state, extending to the Atlantic coast.

Those that are marked "Not received by the Society" have been written for, but they do not respond.

The figures following the name of each county indicate the number of bound newspaper files for that county.

Our society has, in addition to the above figures, 16,067 volumes of newspapers and periodicals published outside of Kansas.
